

We've been team building

The Tyco Rapid Seal Adapter product line by Johnson Controls has grown to 11 expertly designed models. Made with BlazeMaster® CPVC compound, Rapid Seal sprinkler head adapters enable installation time savings by eliminating the need for sprinkler tape or sealant.

1

Fast and Simple Installation

No thread tape or sealant ensures a fast and leak-free installation. Compact design allows for improved installation flexibility.

No Tape/Sealant

No Leaks

Flexible Fit

2

All-CPVC Solution

The no lead, no brass design eliminates dezincification in hard water environments and complies with state/federal low-lead requirements.

No Lead

No Dezincification

3

Multiple styles and sizes available

The Rapid Seal Adapter is available for 1" and 3/4" piping systems in straight, elbow, spigot, tee, back-to-back tee and back-to-back cross configurations.
